

● TRITACTIX PRESENTS

MallOS

**EVERY TENANT. EVERY SALE.
ONE CLEAR SHARE.**

The operating system for tenant sales, revenue share and commercial performance in shopping malls.

● THE REALITY TODAY

YOUR TENANTS RUN A DOZEN SYSTEMS. YOUR REVENUE SHARE RUNS ON A SPREADSHEET.

Sales data arrives from different POS systems, in different formats, at different times. Every tenant has its own terms. Finance rebuilds the picture by hand every month.

"Sales were low this month"

Manual re-typing

● WHAT IT COSTS YOU

SPREADSHEETS DON'T JUST SLOW YOU DOWN. THEY LEAK REVENUE.

01

LATE

Month-end figures are assembled days after the month closes. Decisions wait for the spreadsheet.

02

UNVERIFIABLE

Self-reported sales with no audit trail. When a number is questioned, nobody can trace it back.

03

LEAKING

Missed minimum-guarantee top-ups, wrong tier rates, copy-paste errors. Small gaps, every tenant, every month.

● INTRODUCING

MalloS

**ONE OPERATING VIEW FOR TENANT SALES
AND REVENUE SHARE.**

MalloS connects every tenant's sales data, applies each agreement's commercial rules automatically, and gives leadership, finance and leasing the same verified numbers.

by Tritactix

THE PLATFORM

● HOW IT WORKS

FROM RAW SALES TO REVENUE SHARE. AUTOMATICALLY.

01

CONNECT

Tenant POS systems feed MalLOS directly. No POS? A simple entry form.

02

STANDARDISE

Every source is cleaned into one consistent sales record per tenant, per day.

03

CALCULATE

Each tenant's agreement is applied: share %, base rent, minimum guarantee or tiers.

04

REPORT

Live dashboards and finance-ready tenant statements, ready to export.

● THE REVENUE SHARE ENGINE

EVERY AGREEMENT. CALCULATED THE SAME WAY.

REVENUE SHARE

$\text{Sales} \times \text{Share \%}$

BASE RENT + SHARE

$\text{Base} + (\text{Sales} \times \text{Share \%})$

MINIMUM GUARANTEE

$\text{MAX}(\text{MG}, \text{Sales} \times \text{Share \%})$

TIERED

Rate steps up at each threshold

Each tenant carries its own structure. Every result is traceable back to the sales that produced it.

INSIDE THE LIVE PLATFORM

THE WHOLE MALL. IN YOUR POCKET.

1

2

3

1

Performance, hour by hour

Sales, revenue share, transactions and average ticket for every hour of trading.

2

Tenant quadrant

Sales against share % and footfall. Spot your stars and laggards instantly.

3

Concentration risk flagged

MallIOS warns you when too few tenants carry too much of your income.

Screens from the live MallIOS platform.
Tenant names blurred.

● CONNECTIVITY MONITORING

KNOW WHO'S REPORTING. BEFORE MONTH-END.

MalLOS watches every data source around the clock. If a tenant's POS stops sending sales, your team knows the same day, not three weeks later.

● Reporting live ● Delayed ● Offline · action needed

● INTEGRATIONS

WORKS WITH THE SYSTEMS YOUR TENANTS ALREADY USE.

Integrate once. Use everywhere. Each POS system is connected once, then serves every tenant that uses it.

● LIVE DATA, NOT MONTH-END DATA

EVERY SALE. EVERY FIVE SECONDS.

1

Every POS, one view

Foodics, Revel, Syrve and Hiopos, side by side, hour by hour.

2

Tenant treemap

Who drives your income at a glance, sized by sales. Tap to drill in.

3

Live transaction feed

Receipts arrive as they happen, refreshed every five seconds.

Screens from the live MalloS platform, dark mode. Tenant names blurred.

● CONTROL & GOVERNANCE

NUMBERS YOU CAN DEFEND.

Everyone sees what their role needs, and nothing more. Every change to a commercial term is recorded: who changed it, when, and what it was before.

● BUILT FOR EVERY TEAM

ONE SOURCE OF TRUTH. FOUR WAYS TO WIN.

LEADERSHIP

**See performance,
not paperwork.**

Portfolio-wide sales and income on one screen, whenever you need it.

FINANCE

Close faster. Bill accurately.

Statements calculated for you, MG top-ups flagged, every figure traceable.

LEASING

Negotiate with evidence.

Real tenant performance data for renewals, tenant mix and new deals.

OPERATIONS

Fix issues the same day.

Know which tenants have stopped reporting, and why.

● GETTING STARTED

LIVE WITHOUT DISRUPTING YOUR TENANTS.

01

DISCOVER

We map your tenant schedule, agreements and POS landscape.

02

CONNECT

POS systems integrated; tenants without one set up for manual entry.

03

PARALLEL RUN

MalLOS runs next to your current process, and we reconcile every figure.

04

GO LIVE

Your team runs month-end in MalLOS, with Tritactix supporting you.

● SIMPLE COMMERCIAL MODEL

PRICING THAT GROWS WITH YOUR PORTFOLIO.

PER TENANT

One annual subscription per tenant.
Add properties and tenants as you grow.

ONCE PER POS

Each POS system is integrated one time only, never charged per tenant, never repeated.

NO POS? NO PROBLEM

Tenants without a POS use manual entry at no extra integration cost.

Your proposal is tailored to your tenant schedule and POS mix.
